

NO 2 + SOYA

Suitable for any horse that requires higher protein levels in order to gain condition.

No 2 + Soya is an appetising meal-style feed that is ideal for a range of horses, including young growing horses, mares feeding foals, polo horses, spelling racehorses and any horse that needs building back up after illness or weight loss for any reason.

A higher protein medium energy conditioning all-purpose feed, No 2 + Soya does not include a vitamin and trace mineral premix, but is designed to be used as a base mix. Additional grain, fibre and vitamin/mineral supplements can be added to the feed to suit the requirements of each individual horse. Because of this, No 2 + Soya is an extremely versatile feed that can also be fed to ruminant animals including cattle, sheep and goats which makes it a flexible feed for use on lifestyle blocks.

Typical Analysis (Dry Matter Basis)
Crude Protein 14.8%

Ingredients Selected From

Crushed Barley, Kibbled Maize, Crushed Oats, Soya Meal, Lucerne Chaff, Oaten Chaff, Zeolite, Lime, Soya/Canola Oil Blend, Salt, Molasses, Mould Inhibitor

Feeding Recommendations

Light Work/Maintenance - 2kg per day

Moderate Work - 3kg per day

Hard Work/Conditioning - 4kg per day

No 2 + Soya should be fed with hay, chaff or grass for roughage, and the day's ration is best broken into two smaller feeds. Because there is no vitamin and trace mineral premix included in the formulation, additional supplementation may be required.

Available in 25kg bags
