

CHOOK CHOW

Suitable for laying hens and pullets.

Chook Chow is a unique and hugely popular meal-form chicken food suitable for laying hens and pullets.

It's a natural and tantalizing mix of whole and crushed grains (sourced from within New Zealand wherever possible) which include maize, barley and wheat, with added soya meal for extra protein, and a vitamin and trace mineral premix for laying hens.

Chook Chow is an irresistible meal which is completely vegetarian (it contains no meat meal, blood meal or fish meal) and includes oven dried oyster grit to enhance egg shell strength. It's not only a delicious meal that chooks love, but a truly complete feed.

Typical Analysis (Dry Matter Basis)
Crude Protein 16%

Ingredients Selected From

Maize, Wheat, Soya Meal, Barley, Shell Grit, Limestone, Molasses, DCP (Di-Calcium Phosphate), Vegetable Oil, Salt, Vitamins and Trace Minerals, Amino Acids (Methionine and Lysine)
