

PIG GROWER PELLETS

Suitable for adult pigs, and weaned pigs requiring additional feed to maximise growth.

Pig Grower Pellets are an ideal feed for pigs that are kept on lifestyle blocks and have their diet supplemented with vegetable scraps and other 'waste' material.

Manufactured with New Zealand and Australian sourced ingredients, Pig Grower Pellets contain a full Pig Grower vitamin and trace mineral premix, and include amino acids in the formulation. Pig Grower Pellets are not stockpiled - they are made on demand so pigs can enjoy eating the freshest feed possible.

Protein-rich, Pig Grower Pellets provide pigs with a source of the vitamins and trace minerals they require in a convenient low waste pellet form, and provide pig owners with fast-growing pigs.

Typical Analysis (Dry Matter Basis) Crude Protein 17%*

* The inclusion of Biscuit Meal may lead to some variation in protein and energy levels due to the natural variation of the protein and energy levels in the Biscuit Meal blends.

Ingredients Selected From

Wheat, Soya Meal, Broll, Biscuit Meal, Lactose, Zeolite, Limestone, Salt, Di-Calcium Phosphate, Lysine, Methionine, Threonine, Pig Grower Vitamin and Trace Mineral Premix

Feeding Recommendations

Adult pigs: 2-3kg per pig per day

Growing pigs: Pig Grower Pellets can be fed ad lib to maximise growth

Note that young pigs that are not weaned should be fed a pig starter crumble until they've been weaned, at which point they can be switched to Pig Grower Pellets.

Available in 25kg bags
